REVIEW OF PERFORMANCE

The principal activities of the Group are:

- (ii) printing and publishing.

These activities are carried out through the Company's subsidiary, joint venture and associated companies to which the Company provides management and administrative services.

Profit Statement – 2nd Quarter

Group revenue of \$474.3 million for the quarter ended 31 March 2016 decreased 4.9% as compared to the corresponding period last year mainly due to lower contributions from Dairies and Printing and Publishing.

Group PBIT (profit before interest and taxation) of \$28.4 million and attributable profit before exceptional items of \$11.6 million were 11.2% and 32.1% respectively higher than the corresponding period last year due to higher contributions from Dairies operations.

Beverages

Overall Beverages revenue and PBIT was 2.5% and 1.4% higher as compared to the same period last year.

Soft Drinks revenue increased by 1.6% as compared to the corresponding period last year mainly due to an increase in volume. Volume was boosted by the introduction of new products, such as *Oishi Green Tea*, *Est Cola*, *Cocolife* and *Ice Mountain Sparkling Water*, and commencement of distribution of *F&N Carbonated Soft Drinks* and *100Plus* in Indonesia. Sales also improved during this period due to the Lunar New Year and festivity-driven consumer and trade marketing programs which were well received by consumers.

Notwithstanding the higher volume, sales was affected by the depreciation of the Malaysian Ringgit against the Singapore Dollar and the loss of *Red Bull* energy drink sales. Excluding sales of *Red Bull* in the previous year, revenue increased 16.0%.

PBIT increased slightly by 1.4% mainly due to higher sales volume, favourable manufacturing overheads and cost management. However these were partially offset by higher advertising and promotional expenses incurred to promote new products and higher operating costs incurred to support expansion into new markets and loss of contribution from *Red Bull*.

Dairies

Dairies revenue was 5.4% lower than the corresponding period last year in Malaysia and Thailand.

Revenue in Dairies Malaysia was affected by the depreciation of the Malaysian Ringgit against the Singapore Dollar, lower domestic sales volume, competitive pricing and higher tactical discounts offered to narrow the price competition.

While revenue in Dairies Thailand was also affected by lost sales from *Bear & Milo* UHT and depreciation of the Thailand Baht against the Singapore Dollar, these were partly offset by volume growth achieved on the back of its increasing network and distribution points and effective trade and consumer marketing campaigns. Excluding sales of *Bear & Milo* UHT in the previous year, Dairies Thailand revenue increased 6.0%.

Although revenue decreased, Dairies PBIT increased 41.1% to \$28.1 million with positive contribution from all sectors as a result of lower milk-based commodity costs and greater operational efficiencies.

Printing and Publishing

Printing and Publishing revenue declined 15.8% from last year to \$69.2 million. The Printing business was affected by weak print demand especially in China. Despite a weak quarter for print, efforts made in Singapore and Malaysia to fill order books have been promising. Publishing reported lower revenue in Latin America and the USA, mainly due to slower demand following the end of the school adoption cycle, and in Singapore due to lower sales in Mother Tongue. Revenue for the Retail and Distribution businesses increased slightly due to higher partwork sales in Hong Kong, higher volume for distribution of new magazine titles in Singapore and strong airport sales arising from promotional efforts.

Losses before interest and taxation increased \$4.7 million to a loss of \$6.5 million for the quarter mainly due to the lower sales. In addition, the Publishing business made investments in the quarter into the development of digital business which are expensed, while the China printing plant was midway through its rationalisation exercise and hence unable to fully mitigate the effect of lower sales.

Tax

The Group effective tax rate ("ETR") of 17.2% (2015: 21.1%) is mainly due to non-deductible expenses, the effect of which has been compensated by an increase in the tax exempt profits of an overseas subsidiary and the write-back of prior year over-provision. These together with a reduction in the withholding tax paid by group companies also contributed to the lower Group ETR in the current quarter.

Balance Sheet as at 31 March 2016

The Group

The increase in Reserves was mainly due to fair value gains on the investment in Vinamilk in Vietnam, profits of \$37.7 million retained for the period and partly offset by payment of last year's final dividend.

Non-current assets increased by \$246.5 million or 15.6% from \$1,577.5 million to \$1,824.0 million as at 31 March 2016 mainly due to:

- (i) fair value gains on the investment in Vinamilk; and
- (ii) increase in fixed assets due to additions partly offset by depreciation charges.

Current assets increased by \$31.5 million or 2.0% from \$1,565.4 million to \$1,596.9 million as at 31 March 2016 attributed mainly to:

- (i) an increase in inventories due to stock build-up for planned machinery maintenance and upcoming Hari Raya Puasa festivities; and
- (ii) an increase in trade receivables mainly due to additional credit limits granted to distributors for the Lunar New Year festivities.

Liabilities increased by \$12.5 million or 2.1% from \$586.8 million to \$599.2 million as at 31 March 2016 mainly due to:

- (i) an increase in borrowings as a result of a Thai Baht term loan facility taken up; and partly offset by
- (ii) a decrease in other payables due to subsequent payments made for accruals outstanding as at 30 September 2015; and
- (iii) a decrease in trade payables due to lower publishing spend and purchasing activities by the Printing and Publishing business.

Group Cash Flow Statement for Quarter Ended 31 March 2016

The cash inflows and outflows are detailed in the Group Cash Flow Statement.

Net cash inflow from operating activities of \$16.6 million is lower as compared to \$42.2 million for the corresponding period last year mainly due to lower cash generated from operations as last year's results included Myanmar Brewery Limited, which had since been disposed in August 2015. This was partly offset by higher interest income received and lower tax payments in the current quarter.

Net cash outflow from investing activities of \$12.2 million is lower as compared to \$23.3 million for the corresponding period last year mainly due to lower investments in fixed assets for the current quarter.

Net cash outflow from financing activities of \$65.3 million was higher than \$32.6 million for the corresponding period last year due to proceeds from term loans taken up last year.

Group Profit Statement – 6 Months-to-Date

Group revenue decreased 8.2% while PBIT increased 26.6% to \$82.1 million as compared to the corresponding period last year. The decrease in revenue was mainly due to the depreciation of the Malaysian Ringgit against the Singapore Dollar, loss of contribution from Red Bull and challenges faced by the Printing and Publishing business.

PBIT increase was largely due to increased contributions from Dairies Malaysia and Dairies Thailand as a result of lower milk based commodity costs, greater operational efficiencies, lower trade discounts extended, and recovery of withholding tax paid on royalties.

Group attributable profit before exceptional items and basic earnings per share before exceptional items were 33.3% and 36.8% higher at \$37.2 million and 2.6 cents respectively.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

According to IMF, global growth is projected to grow 3.2% in 2016, lower than the previous projection of 3.4%. Economic growth in the countries in which the Group operates are likely to remain uneven with Asean economies expected to grow above global average at 4.8% and with Singapore's growth forecasted at 1.8%.

Consistent with the softened global economy and uncertainty, consumer sentiments in the Food & Beverage segment is expected to be subdued. However, the segment is expected to benefit from lower commodity prices. The Group will continue to monitor the situation closely to respond in a timely manner to changes in consumer sentiments and preferences and potential changes in regulations so as to sustain the operating performance of the Group.

The operating environment for the Printing & Publishing segment is likely to remain challenging in the coming months. Publishing will continue to invest to develop its digital business and strengthen its overseas markets while the focus of the Print business remains on expansion of its commercial and non-traditional print jobs to mitigate the decline in traditional print business.

With the Singapore Dollar expected to remain relatively stronger against the regional Asia Pacific currencies, this will negatively impact the financial performance of the Group as a high proportion of earnings are derived from outside Singapore. The negative currency translation may be partially alleviated by the expected favourable commodity prices.

With \$700.0 million of cash available for business acquisitions and being in a net cash position, the Group will actively pursue new business opportunities.
