REVIEW OF PERFORMANCE

The principal activities of the Group are:

- (i) production and sale of beverages and dairy products; and
- (ii) printing and publishing.

These activities are carried out through the Company's subsidiary, joint venture and associated companies to which the Company provides management and administrative services.

Profit Statement – 3rd Quarter

Group revenue of \$524.0 million for the quarter ended 30 June 2016 decreased 4.1% as compared to the corresponding period last year mainly due to lower contributions from Beverages Malaysia and Printing and Publishing.

Group PBIT (profit before interest and taxation) of \$58.7 million and attributable profit before exceptional items of \$38.0 million were 25.1% and 52.6% respectively higher than the corresponding period last year due to higher contributions from Dairies and Others operations, partly offset by lower contributions from Beverages operations.

Beverages

Overall Beverages revenue and PBIT was 8.6% and 41.3% lower as compared to the same period last year.

Soft Drinks Malaysia volume and sales revenue declined on increased pricing pressures, softer consumer confidence and cessation of *Red Bull* energy drink sales. Revenue was also affected by the depreciation of the Malaysian Ringgit against the Singapore Dollar. This was partly offset by improvements in Singapore on the back of marketing campaigns and improved performance in Modern Trade segment. Introduction of new products such as *Oishi Green Tea* and *Ice Mountain Sparkling Water*, and commencement of distribution of *F&N Carbonated Soft Drinks* and *100Plus* in Indonesia also contributed to the increase.

The decrease in PBIT was due to loss of contribution from Red Bull and increased pricing pressures. Higher advertising and promotional expenses were also incurred for marketing campaigns and promotion of new products for both existing and new markets. Brand investments in new markets is also expected to continue over the next few years.

Dairies

Dairies revenue was 0.9% higher than the corresponding period last year mainly due to Dairies Singapore and Dairies Thailand.

Revenue in Dairies Singapore increased mainly due to higher export sales. While revenue in Dairies Malaysia also increased due to higher export volumes, this was offset by the depreciation of the Malaysian Ringgit against the Singapore Dollar, lower domestic sales volume and subdued consumer confidence. In Thailand, Dairies Thailand managed to achieve sales and volume growth by building on the strengths of its network and distribution points and effective execution of trade and consumer marketing campaigns.

Although revenue was flat, Dairies PBIT increased 64.3% to \$33.9 million mainly due to positive commodity price variance, favourable product mix and higher manufacturing economies of scale.

Printing and Publishing

Printing and Publishing revenue declined 11.2% from last year to \$72.1 million. Retail and Distribution business recorded an increase in revenue due to contribution from the store at Waterway Point and the full year effect from the commencement of distribution of major local publisher's magazines in Singapore. However, this was offset by the Printing business which was affected by reduction in print volume from key magazine publishers and discontinuation of a joint venture in China. Despite the decline, efforts made to stabilize the revenue decline and strengthen the order books have been promising. Publishing recorded a slight decrease in revenue due to lesser textbook orders in USA.

Losses before interest and taxation of \$1.7 million was mainly due to lower revenue and royalties received by Publishing and continuing investments into the development of digital businesses. The Printing division was able to lower its losses and mitigate the effects of lower revenue mainly as a result of a cost rationalization exercise held last year.

Others

The increased contribution from Others is mainly due to an increase in dividends from Vinamilk and interest income from deposits placed with proceeds from sale of Myanmar brewery last year.

Tax

The Group effective tax rate ("ETR") of 13.9% (2015: 17.4%) is mainly attributed to the tax exempt profits of an overseas subsidiary and the write-back of prior year over-provision. The lower ETR in this quarter is also the result of a reduction in non-deductible expenses.

Balance Sheet as at 30 June 2016

The Group

The increase in Reserves was mainly due to fair value gains on the investment in Vinamilk in Vietnam, profits of \$76.3 million retained for the period and partly offset by payment of dividends.

Non-current assets increased by \$293.1 million or 18.6% from \$1,577.5 million to \$1,870.6 million as at 30 June 2016 mainly due to:

- (i) fair value gains on the investment in Vinamilk; and
- (ii) increase in fixed assets due to additions partly offset by depreciation charges.

Current assets increased by \$51.1 million or 3.3% from \$1,565.4 million to \$1,616.5 million as at 30 June 2016 attributed mainly to:

- (i) an increase in trade receivables and other receivables mainly due to additional credit limits granted to distributors for the Hari Raya Puasa festivities; and
- (ii) an increase in cash and bank deposits mainly due to interest earned on proceeds from disposal of the Myanmar brewery; and partly offset by
- (iii) a decrease in inventories due to sales build-up achieved for the Hari Raya Puasa festivities.

Total liabilities increased by \$21.5 million or 3.7% from \$586.8 million to \$608.3 million as at 30 June 2016 mainly due to:

- (i) an increase in borrowings as a result of a Thai Baht term loan facility taken up; and partly offset by
- (ii) a decrease in trade payables of \$10.4 million due to lower publishing spend and purchasing activities by the Printing and Publishing business.

Group Cash Flow Statement for Quarter Ended 30 June 2016

The cash inflows and outflows are detailed in the Group Cash Flow Statement.

Net cash inflow from operating activities of \$55.3 million is lower than the \$61.1 million for the corresponding period last year mainly due to lower cash generated from operations as last year's results included the Myanmar brewery, which was disposed in August 2015 and higher tax payments in the quarter. This was partly offset by higher interest income received and improvements in working capital management.

Net cash outflow from investing activities of \$0.8 million is comparable to \$0.6 million incurred for the corresponding period last year.

Net cash outflow from financing activities of \$43.2 million was higher than the \$35.5 million for the corresponding period last year due to repayment of term loans this quarter as compared to term loans taken up in the corresponding quarter last year.

Group Profit Statement – 9 Months-to-Date

Group revenue decreased 6.8% while PBIT increased 26.0% to \$140.8 million as compared to the corresponding period last year. The decrease in revenue was mainly due to the depreciation of the Malaysian Ringgit against the Singapore Dollar, subdued consumer confidence in the Beverages and Dairies business and challenges faced by the Printing and Publishing business.

PBIT increase was largely due to increased contributions from Dairies Malaysia and Dairies Thailand as a result of lower milk-based commodity costs, higher manufacturing economies of scale and recovery of withholding tax paid on royalties.

Group attributable profit before exceptional items and basic earnings per share before exceptional items were 42.4% and 44.4% higher at \$75.1 million and 5.2 cents respectively.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The United Kingdom vote in favour of leaving the European Union has increased economic and political uncertainty in the coming months. The uncertainties are expected to affect consumer confidence and market sentiment in the short term. The IMF global growth forecast has been revised down modestly to 3.1% in 2016, lower than the previous projection of 3.2%. The outlook for emerging markets and developing economies remains varied, with Asean economies expected to grow above global average at 4.8% and with Singapore's growth forecasted at 1.6%.

In the Asean markets where the Group operates in, consistent with the softened global economy and uncertainty, consumer sentiments in the Food & Beverage segment is expected to be subdued. Globally, while milk-based commodity prices appear to have stabilised, sugar prices have shown signs of upward pressure. The Group will continue to monitor the situation closely and take appropriate action to manage commodities cost.

The operating environment for the Printing and Publishing segment will remain challenging in the near term. Publishing will continue to invest in its digital business and new overseas markets leveraging on its strength in the education content segment. Print business will focus on commercial and non traditional print jobs, right sizing print capacity to adjust to market demand. Retail operations will focus on ongoing re-branding efforts to transform our retail outlets to a family oriented, children focused lifestyle book retailer. For the distribution business, while we continue to grow our revenue, management will also look for complimentary acquisition targets to scale up the distribution business.

With \$700.0 million of cash available for business acquisitions and no net debt, the Group will continue to actively pursue new business opportunities.
