Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements

1. Operations review

Current quarter ended 30 June 2017 vs corresponding quarter ended 30 June 2016

Current quarter Group revenue and profit before tax declined by 6.1% (from RM1,108.6 million to RM1,041.3 million) and 34.2% (from RM111.8 million to RM73.5 million) respectively.

F&B Malaysia revenue decreased by 14.0% from RM688.7 million to RM592.5 million compared with the corresponding quarter impacted by continuing weak consumer sentiment during the Hari Raya festive season coupled with intense pricing pressure from competitors. Growth in F&B Malaysia exports mitigated the decline in domestic sales.

F&B Malaysia operating profit declined by 61.3% from RM62.6 million to RM24.2 million due to lower revenue, higher input costs, particularly sugar, and restructuring costs. The reduction was partly offset by lower trade spending and higher profit from export sales this quarter.

F&B Thailand revenue grew by 6.9% from RM419.7 million to RM448.6 million, despite lower domestic volumes, aided by favourable Ringgit Malaysia/Thai Baht translation and higher exports.

However, F&B Thailand operating profit declined by 2.4% from RM52.8 million to RM51.5 million as a result of higher raw material costs; partially mitigated by cautious trade spending.

Cumulative three quarters vs corresponding period last year

Year to date Group revenue and profit before tax declined by 2.1% (from RM3,191.1 million to RM3,125.1 million) and 14.5% (from RM391.2 million to RM334.3 million) respectively. Excluding one-offs in the current and corresponding period last year, profit before tax declined by 10.4%. (Schedule A : Unaudited Condensed Consolidated Income Statement, note α).

F&B Malaysia revenue declined by 9.0% from RM1,960.5 million to RM1,783.5 million compared with the corresponding period last year mainly due to subdued Chinese New Year and Hari Raya festive sales, amidst an increasingly challenging competitive landscape. Consumer sentiment remained weak and higher inflation affected consumer purchasing power. The strong double digit growth in export sales mitigated the decline in domestic sales.

F&B Malaysia operating profit declined by 36.6% from RM208.5 million to RM132.2 million mainly due to lower domestic revenue, higher input costs, particularly sugar, and restructuring costs. The decline was partly offset by lower trade spending and higher profit from export sales.

F&B Thailand revenue grew by 9.0% from RM1,229.7 million to RM1,340.8 million from favourable Ringgit Malaysia/Thai Baht translation. F&B Thailand exports grew by double digits with the expansion of brand visibility in Indochina markets.

F&B Thailand operating profit increased significantly by 22.3% from RM160.6 million to RM196.4 million, aided by favourable input costs. There was also the recovery of withholding tax on royalties paid (RM8.5 million), in the corresponding period last year.

Others segment operating loss of RM17.4 million last year turned into an operating income of RM6.3 million in the current year to date mainly due to the release of provisions for litigation claims no longer needed, offset by restructuring costs. Additionally, an adjustment on the realisation of the foreign exchange gain on the early redemption of the zero-coupon bond by F&N Dairies (Thailand) Limited was made in the corresponding period last year.

Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements

2. Comment on material change in Group profit before tax for the quarter ended 30 June 2017 vs preceding 2nd quarter ended 31 March 2017

Group revenue for the quarter increased by 4.9% from RM992.7 million to RM1,041.3 million. However, Group profit before tax decreased by 37.0% from RM116.8 million to RM73.5 million.

F&B Malaysia revenue increased by 8.9% from RM543.9 million to RM592.5 million compared to the preceding quarter mainly contributed by Hari Raya festive sales and exports in the current quarter. However, operating profit decreased by 49.1% from RM47.6 million to RM24.2 million due to higher discounting from competitive pricing, rising input costs, higher restructuring costs and lower export profits arising from strengthening Ringgit in the quarter.

F&B Thailand revenue was flat whilst operating profit decreased by 22.8% from RM66.8 million to RM51.5 million, impacted by rising input costs and higher trade spend.

3. Prospects

The business environment in Malaysia is expected to remain challenging, with continuing weak consumer sentiment and intense price competition. Management also remains cautious on the state of consumer sentiment in Thailand.

Input costs in the near to mid term for F&B Thailand and F&B Malaysia are expected to increase following the uptrends in packaging cost, milk powder and sugar prices.

Despite these challenges, management will continue to be vigilant and responsive to changes in the external environment and take necessary action, including reviewing our cost structure, to maintain long term sustainable growth and continuously grow the export pillar.

4. Profit forecast or profit guarantee

The Group did not issue any profit forecast or profit guarantee for the current quarter in a public document.
