The interim financial statements should be read in conjunction with the audited financial statements of the Group for the year ended 30 September 2019. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 30 September 2019.

The accounting policies and presentation applied by the Group in these interim financial statements are the same as those applied by the Group in its consolidated annual financial statements as at and for the year ended 30 September 2019, except for the adoption of the following new and amended MFRSs, and Issues Committee (IC) Interpretations mandatory for annual financial periods beginning on or after 1 October 2019:

## Schedule F : Selected Explanatory Notes Pursuant to MFRS 134 (cont'd)

### 2. Basis of preparation (cont'd)

#### MFRS 16 Leases

MFRS 16 replaces the guidance in MFRS 117 *Leases*, IC Interpretation 4 *Determining whether an Arrangement contains a Lease*, IC Interpretation 115 *Operating Leases – Incentives* and IC Interpretation 127 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

The Group has established a structured implementation programme which includes establishing a project team, training programme, review of lease agreements, undertaking impact assessment and changes to system and process to ensure readiness and smooth implementation of MFRS 16.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

The Group has applied MFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised as an adjustment to retained earnings at 1 October 2019. Accordingly, the comparative information presented for financial year ended 30 September 2019 has not been restated – i.e. it is presented, as previously reported under MFRS 117 *Leases* and related interpretations.

With the adoption of MFRS 16, the right-of-use assets and lease liabilities are presented in the Statement of Financial Position for the financial year ending 30 September 2020. The right-of-use assets and lease liabilities as at 1 October 2019 is approximately 1% of total assets and 3% of total liabilities respectively. No significant impact on the Group's finance leases. The estimated impact on adoption of MFRS 16 is based on assessment performed to-date. The actual impact of adopting the standard may change until the Group presents its audited financial statements for the financial year ending 30 September 2020.

## Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements

### 1. Operations review

#### Current quarter ended 31 March 2020 vs corresponding quarter ended 31 March 2019

Group revenue for the current quarter eased marginally by 1.9% from RM1,025.4 million to RM1,005.6 million from adverse impact of the COVID-19 pandemic and movement control measures on consumer demand. Group operating profit and profit before tax maintained at RM130 million and RM134 million respectively, with positive contribution from F&B Thailand.

- F&B Malaysia

F&B Malaysia current quarter revenue declined by 7.8% from RM541.5 million to RM499.2 million due to:

- (i) earlier sell-in for Chinese New Year this year;
- (ii) adverse impact from COVID-19 outbreak and the containment measures implemented; and
- (iii) partially offset by higher growth in export revenue, especially in the ASEAN and Greater China region. Although there is growth compared to last year, growth was limited due to postponement of orders due to lockdown and quarantine imposed on shipping vessels in certain countries due to COVID-19.

F&B Malaysia operating profit declined by 13.7% from RM28.2 million to RM24.3 million mainly due to lower revenue, higher dairies input cost, unfavourable foreign currency impact and partially offset by lower advertising and promotions spend.

- F&B Thailand

Aided by favourable RM/THB forex translation, F&B Thailand revenue rose 4.3% (+1.3% in Thai Baht terms) from RM483.6 million to RM504.2 million. Amidst the impact of the COVID-19 outbreak, revenue in Thai Baht terms grew marginally by 1.3% contributed by:

- (i) higher load of shipments delivered ahead for the export OEM business;
- (i) products front-loaded into the trade ahead of the emergency decree implemented in Thailand from 26 March 2020; and
- (ii) slight growth in the Indochina market.

Operating profit for F&B Thailand rose 2.5% (+0.7% in Thai Baht terms) from RM103.0 million to RM105.5 million mainly due to net favourable input costs aided by a stronger Thai Baht and offset by higher marketing and trade spending.

**Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements (cont'd)**

1. Operations review (cont'd)

Half year vs corresponding period last year

Group revenue for the 1<sup>st</sup> half ended 31 March 2020 grew by 4.0% from RM2,035.7 million to RM2,116.7 million, whilst Group operating profit and profit before tax rose 2.2% and 2.3% respectively, with sustained growth contributed by F&B Thailand.

• F&B Malaysia

Amidst a backdrop of global and domestic uncertainties, subdued consumer demand and the COVID-19 pandemic outbreak, F&B Malaysia managed to maintain same volume as last year despite revenue slipping marginally by 1.0% bolstered by double digit growth in exports and supported by a stream of new products/variants such as:

- Sunkist Pure Juice Drink in 2 variants - Orange and Lemon Apple;
- 100PLUS Zero, sugar-free and calorie-free variant;
- F&N Teapot Sweetened Condensed Milk Squeeze Tube in 2 new local flavours - Gula Melaka and Pandan;
- F&N Ice Mountain Sparkling Water Classic and 2 refreshing flavours (Lemon and Grapefruit);
- F&N Classic recipes – F&N Orange Crush and Sarsi in portion-controlled pack size;
- two new premium no sugar Japanese Green Tea – OYOSHI Gold No Sugar Kabusecha and OYOSHI Gold No Sugar Sencha; and
- F&N Teh Tarik Ori.

F&B Malaysia operating profit declined by 9.5% to RM73.0 million mainly due to net unfavourable dairies input costs.

• F&B Thailand

F&B Thailand achieved revenue of RM1,030.0 million for the 1<sup>st</sup> half year, 9.6% higher revenue (+3.7% in Thai Baht terms) mainly due to a strong 1<sup>st</sup> quarter performance. Positive growth was contributed by:

- (i) successful customer loyalty programme and hawker installation initiatives nationwide;
- (ii) wider outlet coverage;
- (iii) new product launches:
  - new variant for TEAPOT Sweetened Condensed Milk Squeeze Tube in Matcha flavour;
  - CARNATION and TEAPOT Evaporated Milk in 1 kg pouch; and
  - CARNATION Plus 0% Fat Sweetened Condensed Milk Squeeze Tube;
- (iv) and aided by favourable RM/THB forex translation.

F&B Thailand operating profit improved by 7.0% to RM216.4 million (+2.1% in Thai Baht terms) contributed by higher revenue, net favourable input and packaging costs offset by higher marketing spend for new product launches.

**Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements (cont'd)**

2. Comment on material change in Group profit before tax for the quarter ended 31 March 2020 vs preceding 1<sup>st</sup> quarter ended 31 December 2019

Current quarter Group revenue declined by 9.5% to RM1,005.6 million (1<sup>st</sup> quarter: RM1,111.1 million) mainly due to:

- (i) adverse impact of COVID-19 outbreak and weaker consumer sentiment for both F&B Malaysia and F&B Thailand in 2<sup>nd</sup> quarter;
- (ii) earlier sell in for Chinese New Year festive season and export growth in the 1<sup>st</sup> quarter for F&B Malaysia; and
- (iii) stronger 1<sup>st</sup> quarter performance from F&B Thailand.

Group profit before tax correspondingly declined by 16.5% to RM134.1 million (1<sup>st</sup> quarter: RM160.6 million) from lower revenue, higher input and packaging costs and foreign exchange impact from strengthening US Dollar.

3. Prospects

The ongoing COVID-19 pandemic outbreak and the containment measures have posed an unprecedented challenge to the global economy. Malaysia has implemented movement control order and state of emergency was declared in Thailand. Economic activities in many of our export markets have also been adversely affected by the pandemic. All our plants continue to operate, although with smaller workforce and with stringent safety measures in place to safeguard the wellbeing of our staff. At the same time, we are working closely with our suppliers and trade partners to ensure minimal supply disruption of our products during this period and explore opportunities to sustain mutual growth.

Against this backdrop, we believe weak consumer demand will continue in 2<sup>nd</sup> half of our financial year, particularly for our beverage sales. While there are many uncertainties as the crisis is still unfolding, we remain positive given our strong fundamentals. Our robust balance sheet and strong portfolio of brands will help us weather the ongoing headwinds.

We have adjusted and sharpened our route-to-market and channel strategies in view of the movement restrictions, changes in consumer buying behaviour and in preparation for 2020 Hari Raya festive sales. We will continue to execute cost optimisation initiatives to deliver efficiencies and savings and reinvest in our brands. We have hedged a portion of our raw materials requirements ahead for the financial year to mitigate the impact of the rise in certain dairies input prices. We are strengthening our businesses so as to be ready when economic activities eventually normalise and consumer demand recover.
